

### Description:

Platon Corner Strip is a black PVC backed one-sided tape which is used for connecting and sealing all the Platon membranes together where they join or overlap.

It is used for abutting joints, for repairs or where membranes have been cut to enable them to overlap, for example at corners, reveals, wall/floor joints or protrusions through the membrane.

It should be regarded as an excellent general purpose sealing and repair product.

### Associated Products:

- Platon Brick Plugs - for fixing the membrane to walls
- Platon Plaster Plugs - for fixing meshed membrane to walls
- Platon Rope - for sealing plugs
- Platon Tape - for sealing membrane joints
- Platon Aqua Channel – for removal of water to evacuation points
